

Students of Net Schools of EDUCAnet were competing for prizes in The Very First Essay Competition 2017

The very first Essay Competition has been announced in the Net Schools to give students an opportunity to share their ideas, stimulate critical thinking and writing as well as foster self-awareness through exploration of the given topics.

Between February and March students in Net Schools of EDUCAnet were encouraged to submit essays that follow one of the topics:

Education to build a better world

Education of the future

Using Internet as an educational tool

Technology as a threat to future generation

We have received lots of excellent and original submissions. After choosing the three best essays from each school of EDUCAnet a panel of judges was sifting through the essays and made their final decisions. It was a really hard decision to choose the best essays among all.
